Contents of Volume 238

Vol. 238 Nos. 1–2 **November 30, 2000**

Research papers

Fuzzy multi-objective function for rainfall-runoff model calibration
P.-S. Yu and T.-C. Yang 1
Simulation of daily runoff in Central Asian alpine watersheds
V. Aizen, E. Aizen, G. Glazirin and H.A. Loaiciga 15
Studying the hydrological response of urban catchments using a semi-distributed linear non-linear model
G. Aronica and M. Cannarozzo 35
Modeling regional salinization of the Ogallala aquifer, Southern High Plains, TX, USA
S. Mehta, A.E. Fryar, R.M. Brady and R.H. Morin 44
Steady water flow around parabolic cavities and through parabolic inclusions in unsaturated and saturated soils
A.R. Kacimov and Y.V. Obnosov. 65
Modeling flow and transport in a two-dimensional dual-permeability system with spatially variable hydraulic properties
T. Vogel, H.H. Gerke, R. Zhang and M.T. Van Genuchten 78
Stable isotopic composition of precipitation in the semi-arid north-central portion of the US Great Plains
F.E. Harvey and J.M. Welker. 90
Groundwater recharge in the Kalahari, with reference to paleo-hydrologic conditions
J.J. de Vries, E.T. Selaolo and H.E. Beekman. 110

Vol. 238 Nos. 3–4 **December 5, 2000**

Research papers

Rainfall–runoff relations for karstic springs. Part I: convolution and spectral analyses
D. Labat, R. Ababou and A. Mangin 123
Rainfall–runoff relations for karstic springs. Part II: continuous wavelet and discrete orthogonal multiresolution analyses
D. Labat, R. Ababou and A. Mangin 149
Transport of free and particulate-associated bacteria in karst
B.J. Mahler, J.-C. Personné, G.F. Lods and C. Drogue 179
Water movement through a thick unsaturated zone underlying an intermittent stream in the western Mojave Desert, southern California, USA
J.A. Izbicki, J. Radyk and R.L. Michel 194
Effects of thinning on throughfall in Canary Islands pine forest — the role of fog
J.R. Aboal, M.S. Jiménez, D. Morales and P. Gil 218
Analysis of conceptual rainfall–runoff modelling performance in different climates
R. Lidén and J. Harlin 231
